[Why is there a panic? For the first time in 50 years the US Government feels scared, because they have been exposed for what they are and they feel unsafe, for the first time in their life. They always got away with it](#)

And now their puppet master is pushing them forward, while the people are pushing them back. With each move they feel the pressure mounting up and this is the panic. They are afraid of a revolution, the media failed its job to brainwash enough people.

They hate Trump not so much because of what he does, but rather his unwillingness to lie about uncomfortable truth.

If America falls Western Civilization will be gone and people of the West enslaved or dead. It will happen quickly.

If people start an armed insurrection or fighting breakouts out then America will fall, China will move in to pick up the pieces. All this talk about civil war and violence is exactly what our enemies abroad live for. The reality is any mass violence would simply destroy the country. That's not patriotism. I truly wish more people could see that.

You might be right. But you should also know it is the elites who keep pushing the narrative violence is not the answer while at the same time having monopoly on the state sanctioned violence against the individual.

There are no right or wrong answers when it comes to conflicts that undoubtedly await the West. I am not advocating for either approach, I just know my history.

I was not ready before. I somehow still thought the system would right itself as the fraud was so obvious and the "riot" so clearly staged. But that is not the case. I now realize I will never be able to just live in peace anyways, so there is much less to loose now. I'm older and past my prime, but will do what I can without fear from now on.

I've been following these bastards for decades and they have never been wounded as much as this. Lots of people are disappointed that this attack on the Globalists might have failed, but they must realise that this fight has been going on a long time and most of it has been on the defensive. The fight for a free humanity never ends and we must keep showing these people for what they are.

Then you'll know just how effective the last 4 years have been. We have tons of information now. We can start the process of planting seeds in the minds of ordinary people again.

The amount of people that thought that I was nuts who are now waking up is amazing. They are going to have to be more blatant now. The more we force them to be blatant, the weaker they become.

Deception is their only real weapon until they have society totally locked down. This is far from over.

I totally agree. They spent the last decades putting the sickening apparatus into place. Then they hosted a fun game show every 2 and 4 years and led us to believe we could vote and control the outcome.

I could always see what they were doing, but I would frequently be very perplexed as to their motive.

After the last 4 years, it is so blatantly obvious.

And everyone thought I was crazy too. Even my family who are very conservative.

Look at how effective it was in exposing the ENTIRE Republican Party. They've been truly exposed for who they really are. They can't walk it back either because for one, Trump will never let them and also because WE won't forget. You can count on one hand how many true Americans there are in that party. On top of that, they're even more hated now than their rivals on the opposite side of the isle. None of them can expose themselves in public, an airport or a public event anymore. They have no idea what's in store for them. Such a bad move.

Growing up, we always understood what the Second Amendment was all about. However, it seemed so far-fetched that our government would ever be so corrupt that we might actually have to use it. And yet, here we are.

It was never far fetched for those who know history and listened to the Founding Father's warnings. THEY KNEW it would become corrupt. Not a matter of IF, but WHEN. That is why they had the foresight to create the 2nd amendment. To give future Americans a fighting chance against such government.

cue a shill rushing in in 3...2...1

to declare, "Th-that's not fear! they're not scared! They're vengeful! Ok? Stop with the larp."

I have watched the news for many years. I know the difference between when these SOBs are panicked with fear and when they're licking their lips eager to carry out some evil scheme.

Right now they're scared shitless. Of what I'm not sure. On the 6th they smug and smirking. On the 7th Nancy and them were suddenly screaming fro the 25th and impeachment. They don't rush vengeance. They take their time.

This is pure fear. If they won, then why?

They are in pure panic mode. They know full well this is how history goes, when you destroy a society. Eventually those in society will rise up and overthrow you. As said before, our forefathers would have been marching and demanding them to come out peacefully before they were dragged out. That was 6 months ago during the middle of the fake pandemic.

They are hoping that they can scare Trump with the articles so he just leaves before the 20th. Then Pence will just hand over the keys while he gets the green light to offer Trump a olive branch with a pardon for anything. The whole idea is to have him go away by himself, thus discrediting the MAGA movement. If he doesnt they will just go ahead and strip Trump via impeachment of any protection he has.

The whole goal is to discredit us, force us to back the "Republicans" all the while China Mitch yokes us and milks us for money with slogans.

This is the message that needs to be heard. I was at the rally and was pretty doomed heading home. It's hard not to be with one of us murdered on prime time and then all us patriots being labeled as terrorists. I mean, fuck. That was unexpected!

But yesterday, I truly realized we are winning. Normies are waking up and the iron hand of the corporate giants is revealed. They are truly afraid, and we will shitpost them to death. Look at old Linda Graham—that was epic!

Hence the lockdowns, restrictions on having more than X number of people gathered in one place, the requirement that no more than two families can be in the same home at any given time, and so on.

They did everything they could to restrict in-person social activity over the past year and drive everything to web based platforms that they controlled, so they could purge us from those places when it was time to strike. These restrictions have been in place for so long that even when lifted, people continue to stay home out of habit.

They definitely thought this through.

They are scared, but they're still getting away with it. We still don't have actual change. And a lot more significant action will be needed for that.

I guess they're too dumb to realize their puppet master doesn't care about them, and violence is the goal. What color revolution was ever peaceful?

Prepare for glory pedes! The Trump offensive began on the 6th. Pelosi's laptop has gone missing. ODNI report was delivered on the 7th meaning the EO is still in play. Sydney Powell requested the release of the Kraken information once again. And the potential MOAB of mass declass. It's getting spicy!

I agree

Trying to impeach him with 12 days left is just bizarre. MAYBE you could argue they just want to say they did it, but I get the feeling they are really scared about something

Better to have a government being afraid of the people.. as the other way around. Like elsewhere.

It never ends well for these folks. next is a great knashing of teeth while the economy flattens out. Then the night of the long knives comes. Patriots please discontinue your participation in this hellish society. Assist your neighbor but do not reach out. We are not allowed churches, we have no taxes to send to DC, we the deplorables should just quit. Do not comply. You want no military, no cops or free businesses. So be it. Let the left live in the society they envision.

They absolutely are scared that's why they are going into censorship overdrive. A bunch of normal Americans steamrolled their way right into Nancy Pelosi's office. They didn't think we could reach out and touch them like that.

The globalists behind the scenes dgaf what happens to their pawns. They'll sacrifice any of their pieces to move even one step closer to their goals.

Our governing elite are just expendable pawns to them, despite those same elite thinking they're going to be on top after the revolution. It seems like they're starting to realize it's not going to be that easy.

I'm not sure they're scared of us at all.

So far, they seem to be getting away with everything.

Americans are stuck with rumors, while not one criminal has been arrested.

They have arrested a bunch of disgruntled Americans tho, pretty much just for being unhappy.

Not sure what everyone is talking about.

If the president and military can't protect our constitution and us from a criminal cabal, this was over before it started, and now Chinese communists control our military.

The only saving grace is that it seems to be the military doesn't care about laws and so they might just go against communists as easily as they let them steal our country.

It feels all up in the air now to me.

Time IS on our side. Time will show what the left has to offer only hatred and violence. Oh wait, let's defund the cops while we are at it and see how that plays out. Idiots.
